

### Assignment 3:

1. Does ANSI recognize the data type DATE?

Answer :- Yes, the American National Standards Institute (ANSI) recognizes the DATE data type as part of the SQL standard. This standard is also adopted by the International Organization for Standardization (ISO).

---

2. Which subdivision of SQL is used to insert values in tables?

Answer :- The subdivision of SQL used to insert values into tables is Data Manipulation Language (DML).

Specifically, the INSERT INTO statement within DML is used to add new rows or records to a table.
